

Exclusive Patrons Tour in the Vatican Museums

Cost € 22.750,00 for a two hour English speaking tour

► In collaboration with Antenna Audio, the Vatican Museums Patron's Office proposes an exclusive Patron audio-tour for our donors. The aim is to meet the expectations of the Patrons, in line with the aims and spirit of our unique organization: to protect, preserve and promote the heritage of art that belongs to all of humanity. Once a Patron's personalized tour concludes with our private guide, they will receive an audio guide and be able to wander in the Museums at their leisure, finding out about new restorations and works of art sponsored by their own chapter, together with an explanation of the most important highlights of our spectacular collection! They will have a chance to live the Museums for the whole day and experience the beauty of the Etruscan Collection, the magic of the Egyptian and Ethnological Museums, the treasures of the Painting Gallery and the Pio-Christian Museums.

Antenna Audio is the world leader in audio and audio-visual interpretation. Every single day,

more than 50,000 people worldwide are inspired and stimulated by an Antenna Audio tour in museums, archaeological sites and visitor attractions, including the Metropolitan Museum of Art, London's National Gallery, the Louvre and the Vatican Museums. Antenna Audio Solutions bring the collections to life through the use of well crafted scripts, music, images, video, sound effects, and archival audio or audio-visual material. Designed for all different audiences and environments, Antenna Audio Solutions offer a comprehensive approach to the diverse educational and interpretive needs of their clients.

Antenna Audio will produce a 40 stop tour of the Museums to highlight the Patrons' projects and the main attractions of the Museums. This experience will be given to Patrons to compliment their private tour. The project includes the writing, taping, production, mixing and loading onto the Patron audio guides.
